Our Wyndham Rewards program re-launch is off to a great start, rental bookings are strong in the US and in Europe, and sales are up in Wyndham Vacation Ownership. We're well positioned to benefit from improving economies and emerging trends in leisure travel. We expect this to drive continued growth going forward."

# SECOND QUARTER 2015 OPERATING RESULTS

Second quarter revenues were \$1.4 billion, an increase of 4% from the prior year period. In constant currency, revenues increased 8%, reflecting growth across all the Company's business segments.

Adjusted net income was \$159 million, or \$1.32 per diluted share, compared with \$150 million, or \$1.17 per diluted share for the same period in 2014. EPS also benefited from the Company's share repurchase program, which decreased the weighted average diluted share count by 6% year-over-year.

Reported net income for the second quarter of 2015 was \$159 million, or \$1.33 per diluted share, compared with \$153 million, or \$1.20 per diluted share, for the second quarter of 2014. Reported net income in the second quarter of 2014 reflects several items excluded from adjusted net income that favorably impacted net income by \$3 million. Full reconciliations of adjusted results to GAAP results appear in Table 8 of this press release.

Free cash flow was \$625 million for the six months ended June 30, 2015, compared with \$695 million for the same period in 2014. The decline in free cash flow reflects the timing of capital expenditures and working capital, including inventory spending. The Company defines free cash flow as net cash provided by operating activities less capital expenditures. For the six months ended June 30, 2015, net cash provided by operating activities was \$737 million, compared with \$793 million in the prior year period. The Company expects free cash flow for the full year 2015 of approximately \$800 million compared with \$749 million in 2014.

# Lodging (Wyndham Hotel Group)

Revenues were \$334 million in the second quarter of 2015, an 18% increase over the second quarter of 2014. In constant currency and excluding acquisitions, revenues increased 8%, reflecting higher domestic RevPAR and worldwide room growth.

Total system-wide RevPAR was flat when compared with the second quarter of 2014. In constant currency, total system-wide RevPAR increased 2.5%. Domestic RevPAR increased 4.5%. International RevPAR declined 1.2% in constant currency, which reflects higher unit growth in lower RevPAR countries such as China.

Adjusted EBITDA for the second quarter of 2015 was \$97 million, an 11% increase compared with the second quarter of 2014. In constant currency, excluding acquisitions and the impact of the increase in the inter-segment licensing fee rate charged for use of the Wyndham brand trade name, adjusted EBITDA increased 9%. The increase primarily reflects higher royalties and franchise fees.

As of June 30, 2015, the Company's hotel system consisted of approximately 7,700 properties and over 668,500 rooms, a 2.8% room increase compared with the second quarter of 2014. Adjusted EBITDA for the second quarter of 2015 was \$182 million, a decrease of 2% compared with the second quarter of 2014. ### Wyndham Worldwide Corporation OPERATING STATISTICS

# GLOSSARY OF TERMS

# Lodging

<u>Number of Rooms</u>: Represents the number of rooms at lodging properties at the end of the period which are either (i) under franchise and/or management agreements, or company owned and (ii) properties under affiliation agreements for which the Company receives a fee for reservation and/or other services provided.

Average Occupancy Rate: Represents the percentage of available rooms occupied during the period.

Average Daily Rate (ADR): Represents the average rate charged for renting a lodging room for one day.

<u>RevPAR</u>: Represents revenue per available room and is calculated by multiplying average occupancy rate by ADR. Comparable RevPAR represents RevPAR of hotels which are included in both periods.

### Vacation Exchange and Rentals

<u>Average Number of Members:</u> Represents members in our vacation exchange programs who paid annual membership dues as of the end of the period or who are within the allowed grace period. For additional fees, such participants are entitled to exchange intervals for intervals at other properties affiliated with the Company's vacation exchange business. In addition, certain participants may exchange intervals for other leisure-related services and products.

Exchange Revenue Per Member: Represents total annualized revenues generated from fees associated with memberships, exchange transactions, member-related rentals and other servicing for the period divided by the average number of vacation exchange members during the period.

<u>Vacation Rental Transactions</u>: Represents the number of transactions that are generated during the period in connection with customers booking their vacation rental stays through the Company. One rental transaction is recorded for each standard one-week rental.

Average Net Price Per Vacation Rental: Represents the net rental price generated from renting vacation properties to customers and other related rental servicing fees during the period divided by the number of vacation rental transactions during the period.

# Vacation Ownership

Gross Vacation Ownership Interest Sales: Represents sales of vacation ownership interest (VOIs), including WAAM sales, before the net effect of percentage-of-completion accounting and loan loss provisions. See Table 9 for a reconciliation of Gross VOI sales to vacation ownership interest sales.

Tours: Represents the number of tours taken by guests in our efforts to sell VOIs.

<u>Volume per Guest (VPG)</u>: Represents Gross VOI sales (excluding tele-sales upgrades, which are non-tour upgrade sales) divided by the number of tours. The Company has excluded non-tour upgrade sales in the calculation of VPG because non-tour upgrade sales are generated by a different marketing channel. See Table 9 for a detail of tele-sales upgrades for 2012-2015.

# General

Constant Currency: Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods (foreign currency translation).

Currency-Neutral: Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods (foreign currency translation) and the impact caused by any foreign exchange related activities (i.e., hedges, balance sheet remeasurements and/or adjustments).

# Wyndham Worldwide Corporation NON-GAAP RECONCILIATIONS AND FINANCIAL INFORMATION (In millions)

### FREE CASH FLOW

We define free cash flow to be net cash provided by operating activities less property and equipment additions which we also refer to as capital expenditures.

We believe free cash flow to be a useful operating performance measure to evaluate the ability of our operations to generate cash for uses other than capital expenditures and, after debt service and other obligations, our ability to grow our business through acquisitions, development advances and equity investments, as well as our ability to return cash to shareholders through dividends and share repurchases. A limitation of using free cash flow versus the GAAP measure of net cash provided by operating activities, net cash used in investing activities and net cash used in financing activities as a means for evaluating Wyndham Worldwide is that free cash flow does not represent the total cash movement for the period as detailed in the consolidated statement of cash flows.

The following table provides more details on the GAAP financial measure that is most directly comparable to the non-GAAP financial measure and the related reconciliation between these financial measures:
