Wyndham Worldwide Reports Second Quarter 2012 Earnings

Second Quarter Adjusted EPS Up 36% Year-Over-Year Increases 2012 EPS Guidance

PARSIPPANY, N.J. (July 25, 2012)— Wyndham Worldwide Corporation (NYSE:WYN) today announced results for the three months ended June 30, 2012.

Highlights:

- Second quarter adjusted diluted earnings per share (EPS) was \$0.87, compared with \$0.64 in the second quarter of 2011, an increase of 36%. Second quarter 2012 reported diluted EPS was \$0.88, an increase of 31% from the same period in 2011.
- Second quarter Adjusted EBITDA increased 10% to \$281 million.
- During the quarter, the Company repurchased 3.8 million shares of its common stock for \$190 million at an average price of \$49.35.
- The Company announced on July 19, 2012 that it completed a term securitization transaction involving the issuance of \$300 million of investment-grade asset-backed notes at an advance rate of 90% and an overall weighted average coupon of 2.66%.
- Raises full year Adjusted EPS Guidance to \$3.10 \$3.20 from \$3.00 \$3.15

"In the first half of 2012 we achieved back-to-back 36% increases in quarterly adjusted EPS growth in an economic environment that remains uncertain," said Stephen P. Holmes, chairman and CEO, Wyndham Worldwide. "Underlying this growth is strong execution from each of our businesses and diversified product offerings well positioned to capitalize on consumers' desire to travel. In addition, we benefited from capital allocation that included the return of capital to shareholders."

SECOND QUARTER 2012 OPERATING RESULTS

Second quarter revenues were \$1.1 billion, an increase of 4% from the prior year period. The increase reflected growth in our Lodging and Vacation Ownership businesses partially offset by unfavorable currency movements in our Vacation Exchange and Rentals business.

For the second quarter of 2012, adjusted net income was \$128 million, or \$0.87 per diluted share, compared with \$108 million, or \$0.64 per diluted share for the same period in 2011. The increase in adjusted net income primarily reflected stronger operating results in our Lodging and Vacation Ownership businesses. The increase in EPS also benefited from our share repurchase program, which decreased our weighted average share count by 14%.

Reported net income for the second quarter of 2012 was \$128 million, or \$0.88 per diluted share, compared with net income of \$114 million, or \$0.67 per diluted share, for the second quarter of 2011. The second quarter of 2011 included a refund of value added taxes, restructuring costs and legacy adjustments costs.

Free cash flow was \$567 million for the six months ended June 30, 2012, compared to \$595 million for the same period in 2011. Excluding a \$51 million refund of value added taxes received in the first half of 2011, free cash flow increased by 4%. The Company defines free cash flow as net cash provided by operating activities less capital expenditures, equity investments and development advances. For the six months ended June 30, 2012, cash provided by operating activities was \$647 million, compared with \$696 million in the prior year period, which included the refund of value added taxes.

BUSINESS UNIT RESULTS

Lodging (Wyndham Hotel Group)

Revenues were \$233 million in the second quarter of 2012, an increase of 23%, compared with the second quarter of 2011. The increase reflected domestic RevPAR gains of 8%, as part of a total system RevPAR increase of 5%, revenues associated with the Wyndham Grand hotel in Orlando, which opened at the beginning of the fourth quarter of 2011, and higher intersegment licensing fees for use of the Wyndham brand trade name. The revenue increase also included a combined \$21 million of reclassifications and incremental global conference fees, both of which were fully offset in expenses.

Adjusted EBITDA was \$74 million, an increase of 12% compared with the second quarter of 2011, largely a result of the revenue increases, partially offset by the operating costs associated with the Wyndham Grand hotel in Orlando and higher marketing costs.

As of June 30, 2012, the Company's hotel system consisted of over 7,170 properties and approximately 608,300 rooms. The development pipeline included approximately 900 hotels and 113,900 rooms, of which 53% were new construction and 53% were international.

Vacation Exchange and Rentals (Wyndham Exchange & Rentals)

Revenues were \$348 million in the second quarter of 2012, compared to \$361 million in the second quarter of 2011. In constant currency and excluding the impact of acquisitions, revenues were flat.

Exchange revenues were \$162 million, a decrease of 4% compared with the second quarter of 2011. In constant currency, exchange revenues were flat, as a 2% increase in exchange revenue per member was offset by a 2% decline in the average number of members due to the non-renewal of an affiliation agreement in the beginning of 2012.

Vacation rental revenues were \$170 million, a 6% decrease compared with the second quarter of 2011. Excluding the impact of foreign currency and acquisitions, vacation rental revenues were flat, reflecting a 4% increase in the average net price per vacation rental offset by a 3% decrease in transaction volume.

Adjusted EBITDA for the second quarter of 2012 was \$82 million, flat compared with the prior-year period.

Vacation Ownership (Wyndham Vacation Ownership)

Revenues were \$570 million in the second quarter of 2012, a 5% increase over the second quarter of 2011, primarily reflecting increased vacation ownership interest (VOI) sales

Gross VOI sales were \$460 million in the second quarter of 2012, up 12% from the second quarter of 2011, primarily reflecting a 6% increase in volume per guest and a 5% increase in tour flow.

Adjusted EBITDA for the second quarter of 2012 was \$150 million, a 15% increase compared with the second quarter of 2011, primarily reflecting contributions from increased VOI sales.

Other Items

- The Company repurchased 3.8 million shares of common stock for \$190 million during the second quarter of 2012 at an average price of \$49.35. From July 1 through July 24, 2012, the Company repurchased an additional 1.1 million shares for \$58 million at an average price of \$50.77. The Company has \$733 million remaining on its current share repurchase authorization.
- Net interest expense in the second quarter of 2012 was \$30 million, compared to \$34 million in the second quarter of 2011. The decline was primarily due to the absence of an accrual for interest on value added taxes in the second quarter of 2011 and a lower average cost of funds resulting from our debt tender and issuance activity during the first quarter of 2012.

Balance Sheet Information as of June 30, 2012:

- Cash and cash equivalents of approximately \$285 million, compared with \$142 million at December 31, 2011
- Vacation ownership contract receivables, net, of \$2.8 billion, unchanged from December 31, 2011
- Vacation ownership and other inventory of approximately \$1.1 billion, unchanged from December 31, 2011
- Securitized vacation ownership debt of \$1.9 billion, unchanged from December 31, 2011
- Long-term debt of \$2.3 billion, compared with \$2.2 billion at December 31, 2011. The remaining borrowing capacity on the revolving credit facility was \$908 million, compared with \$771 million as of December 31, 2011

A schedule of debt is included in Table 5 of this press release.

Outlook

For the full year 2012, the Company:

- Reiterates Revenues of approximately \$4.425 \$4.6 billion
- Updates Adjusted EBITDA guidance to \$1.040 \$1.055 billion from \$1.030 \$1.055 billion
- Raises Adjusted EPS Guidance to \$3.10 \$3.20 from \$3.00 \$3.15

The guidance reflects assumptions used for internal planning purposes. Guidance may exclude non-recurring or special items, which may have a positive or negative impact on reported results. If economic conditions change materially from current levels, these assumptions and our guidance may change materially.

The Company implemented this sales model during the second quarter of 2012 and as such, there is no historical data prior to 2012

Wyndham Worldwide Corporation OPERATING STATISTICS

GLOSSARY OF TERMS

Lodging

Number of Rooms: Represents the number of rooms at lodging properties at the end of the period which are either (i) under franchise and/or management agreements, or company owned, (ii) properties under affiliation agreements for which we receive a fee for reservation and/or other services provided and (iii) properties managed under a joint venture.

Average Occupancy Rate: Represents the percentage of available rooms occupied during the period.

Average Daily Rate (ADR): Represents the average rate charged for renting a lodging room for one day.

RevPAR: Represents revenue per available room and is calculated by multiplying average occupancy rate by ADR. Comparable RevPAR represents RevPAR of hotels which are included in both periods.

Vacation Exchange and Rentals

Average Number of Members: Represents members in our vacation exchange programs who paid annual membership dues as of the end of the period or within the allowed grace period. For additional fees, such participants are entitled to exchange intervals for intervals at other properties affiliated with our vacation exchange business. In addition, certain participants may exchange intervals for other leisure-related services and products.

Exchange Revenue Per Member. Represents total annualized revenues generated from fees associated with memberships, exchange transactions, member-related rentals and other servicing for the period divided by the average number of vacation exchange members during the period.

<u>Vacation Rental Transactions</u>: Represents the number of transactions that are generated in connection with customers booking their vacation rental stays through us. One rental transaction is recorded for each standard one-week rental.

Average Net Price Per Vacation Rental: Represents the net rental price generated from renting vacation properties to customers and other related rental servicing fees divided by the number of vacation rental transactions.

Vacation Ownership

Gross Vacation Ownership Interest Sales. Represents sales of vacation ownership interest (VOIs), including Wyndham Asset Affiliation Model sales, before the net effect of percentage-of-completion accounting and loan loss provisions. See Table 9 for a reconciliation of Gross VOI sales to Vacation Ownership Interest Sales. We believe that Gross VOI sales provides an enhanced understanding of the performance of our vacation ownership business because it directly measures the sales volume of this business during a given reporting period.

<u>Tours</u>: Represents the number of tours taken by guests in our efforts to sell vacation ownership interests.

<u>Volume per Guest (VPG)</u>: Represents gross VOI sales (excluding tele-sales upgrades, which are non-tour upgrade sales) divided by the number of tours. We have excluded non-tour upgrade sales in the calculation of VPG because non-tour upgrade sales are generated by a different marketing channel. See Table 9 for a detail of tele-sales upgrades for 2009-2012. We believe that VPG provides an enhanced understanding of the performance of our vacation ownership business because it directly measures the efficiency of this business' tour selling efforts during a given reporting period.

General

Constant Currency: Represents a comparison eliminating the effects of foreign exchange rate fluctuations between periods.

Wyndham Worldwide Corporation NON-GAAP RECONCILIATIONS AND FINANCIAL INFORMATION (In millions)

FREE CASH FLOW

The Company defines free cash flow as net cash provided by operating activities less capital expenditures, equity investments and development advances. The Company considers free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by the business that, after the acquisition of property and equipment, equity investments and development advances, can be used for strategic opportunities, including making acquisitions, paying dividends, repurchasing the Company's common stock and strengthening the balance sheet. Analysis of free cash flow also facilitates management's comparisons of the Company's operating results to its competitors' operating results. A limitation of using free cash flow versus the GAAP measure of net cash provided by operating activities as a means for evaluating Wyndham Worldwide is that free cash flow does not represent the total increase or decrease in the cash balance from operations for the period.

The following table provides more details on the GAAP financial measure that is most directly comparable to the non-GAAP financial measure and the related reconciliation between these financial measures:

	Six Months End	ded June 30,
